

SharePoint Lab: SharePoint Tenant Administration Setup

Duration : 30 Min.

Scenario

You are setting up a new Microsoft 365 tenant for SharePoint Online. You need to assign administrator roles and configure basic tenant-level sharing permissions.

Task Objectives

Perform the following actions inside the `student_workspace` directory: - Configure tenant administrative access boundaries, assign farm/tenant roles, and set up external sharing guidelines in the Admin Center profile.

Instructions to Perform the Task

1. When your workspace loads in **VS Code**, use the **Explorer** panel on the left to locate your files.
2. Navigate to and click the specific files mentioned in the Task Objectives.
3. Make the necessary code edits in the editor.
4. Press `Ctrl + S` (Windows) or `Cmd + S` (Mac) to save your changes.
5. If you need to run commands, open the built-in terminal by clicking **Terminal > New Terminal** from the top menu.

Validation

Once you have saved your files and are ready to submit, return to the platform dashboard and click the **"Submit Final"** button. This task is evaluated manually by the grading team.

Evaluation Rubric:

1. Tenant administration roles configuration: 5 marks
2. External sharing policy setup in Admin Center: 5 marks

Total Score: 10 Marks

Important Notes

- This is a manually evaluated question.
- Ensure all logs and configurations are fully saved in your workspace folder before submitting.
