

SharePoint Lab: Document Library Content Types

Duration : 30 Min.

Scenario

A department requires a structured Document Library in SharePoint to store invoices and contracts. You must create custom Content Types to ensure metadata integrity.

Task Objectives

Perform the following actions inside the `student_workspace` directory: - Define a custom Content Type hierarchy and link the types to the target Document Library configurations.

Instructions to Perform the Task

1. When your workspace loads in **VS Code**, use the **Explorer** panel on the left to locate your files.
2. Navigate to and click the specific files mentioned in the Task Objectives.
3. Make the necessary code edits in the editor.
4. Press `Ctrl + S` (Windows) or `Cmd + S` (Mac) to save your changes.
5. If you need to run commands, open the built-in terminal by clicking **Terminal > New Terminal** from the top menu.

Validation

Once you have saved your files and are ready to submit, return to the platform dashboard and click the **"Submit Final"** button. This task is evaluated manually by the grading team.

Evaluation Rubric:

1. Custom Content Type creation and column definition: 5 marks
2. Associating Content Types with target Document Library: 5 marks

Total Score: 10 Marks

Important Notes

- This is a manually evaluated question.
- Ensure all logs and configurations are fully saved in your workspace folder before submitting.
