

SharePoint Lab: Managed Metadata Service Configuration

Duration : 30 Min.

Scenario

Corporate taxonomy needs to be enforced across site collections. You need to configure the Managed Metadata Service and create a Term Set.

Task Objectives

Perform the following actions inside the `student_workspace` directory: - Create a Term Group and Term Set inside the Term Store metadata configurations.

Instructions to Perform the Task

1. When your workspace loads in **VS Code**, use the **Explorer** panel on the left to locate your files.
2. Navigate to and click the specific files mentioned in the Task Objectives.
3. Make the necessary code edits in the editor.
4. Press `Ctrl + S` (Windows) or `Cmd + S` (Mac) to save your changes.
5. If you need to run commands, open the built-in terminal by clicking **Terminal > New Terminal** from the top menu.

Validation

Once you have saved your files and are ready to submit, return to the platform dashboard and click the **"Submit Final"** button. This task is evaluated manually by the grading team.

Evaluation Rubric:

1. Term Group and Term Set creation: 5 marks
2. Defining Term hierarchy and properties: 5 marks

Total Score: 10 Marks

Important Notes

- This is a manually evaluated question.
- Ensure all logs and configurations are fully saved in your workspace folder before submitting.
