

SharePoint Lab: MS Teams Document Library Sync

Duration : 30 Min.

Scenario

Users want to access files stored in Microsoft Teams channels directly from SharePoint. You must configure document synchronization between Teams channel libraries and SharePoint.

Task Objectives

Perform the following actions inside the `student_workspace` directory: - Establish folder link mappings inside SharePoint Documents to sync with Microsoft Teams files directories.

Instructions to Perform the Task

1. When your workspace loads in **VS Code**, use the **Explorer** panel on the left to locate your files.
2. Navigate to and click the specific files mentioned in the Task Objectives.
3. Make the necessary code edits in the editor.
4. Press `Ctrl + S` (Windows) or `Cmd + S` (Mac) to save your changes.
5. If you need to run commands, open the built-in terminal by clicking **Terminal > New Terminal** from the top menu.

Validation

Once you have saved your files and are ready to submit, return to the platform dashboard and click the **"Submit Final"** button. This task is evaluated manually by the grading team.

Evaluation Rubric:

1. Channel folder mapping inside SharePoint documents: 5 marks
2. Metadata sync validation and testing: 5 marks

Total Score: 10 Marks

Important Notes

- This is a manually evaluated question.
- Ensure all logs and configurations are fully saved in your workspace folder before submitting.
