

Incident Management Lab: Incident Ticket Completeness & Evidence Quality Audit

Duration : 45 Min.

Scenario

A Quality Assurance lead is scoring 20 resolved incident tickets to evaluate compliance with organizational ticket standards.

Task Objectives

Perform the following actions inside the `student_workspace` directory: - Audit tickets against a quality scorecard, evaluate resolution notes, and identify missing evidence attachments.

Instructions to Perform the Task

1. When your workspace loads in **VS Code**, use the **Explorer** panel on the left to locate your files.
2. Navigate to and click the specific files mentioned in the Task Objectives.
3. Make the necessary code edits in the editor.
4. Press **Ctrl + S** (Windows) or **Cmd + S** (Mac) to save your changes.
5. If you need to run commands, open the built-in terminal by clicking **Terminal > New Terminal** from the top menu.

Validation

Once you have saved your files and are ready to submit, return to the platform dashboard and click the "**Submit Final**" button. This task is evaluated manually by the grading team.

Evaluation Rubric:

1. Auditing ticket mandatory fields, CIs, and work notes against a quality scorecard: 3 marks
2. Evaluating the technical clarity and completeness of resolution notes: 3 marks
3. Verifying supporting log files and screenshot evidence attachments: 2 marks
4. Calculating ticket quality scores and providing feedback to resolver groups: 2 marks

Total Score: 10 Marks

Important Notes

- This is a manually evaluated question.
- Ensure all logs and configurations are fully saved in your workspace folder before submitting.
