

# Enterprise Batch Lab: Navigating Enterprise Scheduler Dashboards

---

Duration : 30 Min.

## Scenario

---

A new operator must monitor active batch job schedules across the enterprise. You need to map out job status representations and workflow hierarchies.

## Task Objectives

---

Perform the following actions inside the `student_workspace` directory: - Document Control-M or AutoSys scheduler navigation structures, interface modules, and operational dashboard features.

## Instructions to Perform the Task

---

1. When your workspace loads in **VS Code**, use the **Explorer** panel on the left to locate your files.
2. Navigate to and click the specific files mentioned in the Task Objectives.
3. Make the necessary code edits in the editor.
4. Press `Ctrl + S` (Windows) or `Cmd + S` (Mac) to save your changes.
5. If you need to run commands, open the built-in terminal by clicking **Terminal > New Terminal** from the top menu.

## Validation

---

Once you have saved your files and are ready to submit, return to the platform dashboard and click the **"Submit Final"** button. This task is evaluated manually by the grading team.

## Evaluation Rubric:

---

1. Mapping key Control-M/AutoSys status indicators and workflow panels: 5 marks
2. Navigating job run histories and execution log archives: 5 marks

**Total Score: 10 Marks**

## Important Notes

---

- This is a manually evaluated question.
- Ensure all logs and configurations are fully saved in your workspace folder before submitting.
