

Observability Lab: Golden Signals Operational Dashboard Layout Design

Duration : 30 Min.

Scenario

An enterprise NOC team needs an operational dashboard layout that prioritizes high-level health signals before deep-dive technical metrics.

Task Objectives

Perform the following actions inside the `student_workspace` directory: - Design an operational dashboard layout hierarchy incorporating Golden Signals, information flow logic, and executive overview panels.

Instructions to Perform the Task

1. When your workspace loads in **VS Code**, use the **Explorer** panel on the left to locate your files.
2. Navigate to and click the specific files mentioned in the Task Objectives.
3. Make the necessary code edits in the editor.
4. Press **Ctrl + S** (Windows) or **Cmd + S** (Mac) to save your changes.
5. If you need to run commands, open the built-in terminal by clicking **Terminal > New Terminal** from the top menu.

Validation

Once you have saved your files and are ready to submit, return to the platform dashboard and click the **"Submit Final"** button. This task is evaluated manually by the grading team.

Evaluation Rubric:

1. Designing visual dashboard hierarchy following Golden Signal principles: 4 marks
2. Structuring panel layouts to separate high-level SLAs from infrastructure metrics: 3 marks
3. Configuring panel threshold colors and alert status indicators: 3 marks

Total Score: 10 Marks

Important Notes

- This is a manually evaluated question.
- Ensure all logs and configurations are fully saved in your workspace folder before submitting.
